With the growing concern of student's physical and online safety, it's the time to educate our students about basic safety principles and measures which would be vital for them on and off school. Pragmatic Education Society senses a duty towards our budding future which should feel safe and secure. Pragmatic education society also contributed in the security ecosystem of India by training and certifying more than 5000 students across India. We are the Partner of **National Skill Development Corporation(NSDC) and already empanelled with more than 6 Centre Govt. Ministries and 10 state govt. for imparting Training.**

Pragmatic Education Society has introduced an advance security solutions program, which would not only help students to assess the physical and online threats as well as counter them. Pragmatic ensures every student should be well equipped to protect them from cyber and physical harassments. With the portfolio of association with organizations like **DMRC, Amity University and Walmart, City Montessori School, Rotary Public School, Delhi Public School and many more**, Pragmatic has been striving in improving the current security landscape by offering advance training programs

Basic elements of the program

- To help them manage and control their emotions as well as overcoming fear.

- To help them learn assertive communication skills, legal awareness along with boosting their confidence and self esteem.

- To teach students about their online identity safety and preventive measures while using internet.

- To train and certify them to become a computer secure user.

Moreover, you can go through the attachment to have a broader look of the program. We would like to contribute our best for the safety of students in and out school, by training them in the same area and also certify them as fit and pass for cyber and physical safety post completion of the training.

Let's join hands to secure our students because "Safety isn't expensive, its Priceless"

Self Protection Awareness and Familiarity Exchange (S.A.F.E)

An initiative by Pragmatic Education Society

S.A.F.E is a training workshop designed for our children, to keep them safe at all times and at all places.

S.A.F.E is not a physical defense program. It has a preventive approach for safety which includes strengthening of body emotions and intuition.

Experts – Psychologists, Doctors, Senior Police, Cyber professionals and Law officers have helped to develop the program.

Structured Workshop with easy to learn practical skills for self protection.

- Children are made AWARE about their specific vulnerabilities.
- They UNDERSTAND psychology of assaulters and behavior patterns
- Get FAMILIAR with specific on and off guard unsafe situations
- Children are EQUIPPED with physical, mental and intuitive skills to deal with any potential assault
- To ARM the students with required cyber literacy to combat cyber security threats.

  WHY S.A.F.E for students?
  - Students feel unsafe because of..
    - ➢ Cyber harassments
    - ➢ Eve teasing and stalking
    - ➢ Bullying
  - Students are unable to express emotions and feelings with parents/teachers.
  - They lack understanding of diverse adolescent emotions and its impact on their own safety.
  - Have limited knowledge and understanding of laws and cyber safety.

BENEFITS OF S.A.F.E TRAINING

- Children understand concept of vulnerability ,its linkage to safety and how not to be become vulnerable in life.
- Will be able to manage and control emotions and overcome fear.
- Learn assertive communication skills.
- Reduced vulnerability.
- Legal awareness.
- Mutual responsibility of both genders for their safety.
- Understand effective use of social media and internet.
- Children will be able to improve their self esteem and become more confident in dealing with people.
- Security on Social Networking Sites.
- Securing mobile devices.
- Securing E-mail Communications.
- Internet Security.
- Students will also:
  - ➢ Receive certificate of participation/International Certification of CSCU
  - ➢ Receive individual vulnerability score.
  - ➢ Access post program connectivity to S.A.F.E online blog to take advise on safety issues

- ❖ Conducted for students of Class IX to XII
- ❖ Separate session for Boys and Girls
- ❖ Training of teachers and security staff.

Let's join hands to secure our students!
